VP End-User Computing

Did you know that Gartner predicts 90% of virtual desktops to be delivered from the cloud by 2025? Now is the perfect time to get started.

WHAT WE DO | DIZZION DIGITAL WORKSPACES

- What is a digital workspace?**
 Dizzion digital workspaces combine cloud desktops, app streaming and workspace add-ons to deliver end-user computing from the cloud.
- Cloud is better**
 Nothing is local. Launch faster. Change on a dime. Infinite scale.
- Better for the end user**
 Freedom & balance: work from anywhere on any device.
- Better for the organization**
 Protection when users are remote. Secure contractors. IP stays safe.
- Better for IT / desktop support**
 Easier to manage. More choices. Rapid on/off-boarding. Happy users.

- Cloud desktops (DaaS)**
 Computers delivered from the cloud, RAM/CPU, OS, apps, settings
- Application streaming**
 Single apps delivered from the cloud, no desktop OS necessary
- Workspace add-ons**
 Architect for unique requirements with options like vGPU, SD-WAN.
- Compose your workspaces with 6 easy choices**
 - Choice of clouds / locations
 - Choice of compliance
 - Choice of mgmt level (30-65-90)
 - Choice of desktops & apps
 - Choice of workspace add-ons
 - Choice of financial terms
